PROJECTS

Gym Landing Page | HTML, CSS and Vanilla JS
This website contains details on gym hours, schedules, and workout plans. It enables users to look up gym information.

Notes App | React, HTML, CSS and JS
This Web App allows users to enter their notes with a heading and paragraph, which will be added and removed at a later time.

Snake Game | HTML, CSS and Vanilla JS
It was created to improve my JavaScript skills, and it features a snake that must eat food to gain points, and if it hits the box area, the game is over.
